Shri Kelvani Uttejak Mandal (SKUM) School, Ahmedabad
2012
Marks: 82.20%

MEGHA GOSAI

UI/UX DESIGNER

PROFESSIONAL SUMMARY

UI/UX Designer with 6+ years of experience, including 4+ years at BISAG-N designing web portals and mobile apps for central and state government departments.
UI is my strongest side: clean, high-fidelity screens, design systems, responsive layouts and accessibility, all built in Figma. I work closely with developers and stakeholders to turn complex requirements into simple, consistent interfaces, and my work has earned appreciation from senior government officials.

PROFESSIONAL EXPERIENCE

2022 – Present

UI/UX Designer

BISAG-N (Bhaskaracharya National Institute for Space Applications and Geo-informatics), Gandhinagar

- Design clean, high-fidelity interfaces for large government and geospatial platforms, on both web and mobile.
- Turn stakeholder requirements into user flows, wireframes, prototypes and final Figma screens, ready for developer handoff.
- Take feedback from clients and stakeholders and refine the designs until they match the project's goals.
- Build design systems that keep the UI consistent across platforms and cut down design and development time.
- Worked on national-level platforms like the **PM Internship Scheme (MCA) and Geological Survey of India (GSI), and on the 46th World Heritage Committee Session (India) and 20.COM together with UNESCO and ASI.** Received formal appreciation from senior officials.

2019 – 2022

Junior Graphic Designer

Hitech Solutions LLP, Ahmedabad

- Designed front-end page layouts for the e-commerce sites of global clothing brands such as GAP, Levi's, Adidas, Nike and Armani.
- Edited photos, corrected colours and retouched images in Photoshop to match each brand's standards.
- Delivered on tight deadlines in a fast-paced production environment.

2018 – 2021

Freelance Artist & Graphic Designer

Various Clients (Domestic) · Part-time

- Created custom sketches and digital paintings for individuals and businesses, from first idea to final delivery.
- Designed branding and graphic work for small businesses and individuals, matching the style to each client's brief.

SKILLS

UI & Visual Design	High-Fidelity UI, Visual Design, Design Systems, Component Libraries, Responsive Design, Accessibility, Design Handoff, Clean User-Friendly UI.
UX Foundations	User Flows, Information Architecture, Wireframing, Prototyping
